A MUST SEE SOUTH FLORIDA ATTRACTION ✨ Dragons & Mythical Creatures ✨ is a new summer attraction at [@Fairchild Botanic Garden](#), in Coral Gables, FL

Whether you're 5 years old or 50, you're going to love it! Follow the map to find all the dragons hidden throughout the gardens; learn about each creature and see how they grow, move or even tell a special story!

Take a break from the heat at the glass house cafe with views into their beautiful butterfly garden, and grab a refreshment or adult beverage! The mango Margarita is dangerous, they know how to make an amazing cocktail! Try a dragon themed lemonade for the kids!

There's a special water quest activity that you can add on, the mission is to cool down the dragon eggs so they don't hatch! You get to keep the water guns after!

Also (not shown) is princess tales & Tea on the terrace with select timings you can also add on to your journey!

This is a fun way to spend the day outside in South Florida for the whole family! So check it out and check it off your sofo bucketlist!
