

JURASSIC GARDEN

An ALL NEW Prehistoric Adventure

SPLASH-TO-HATCH THE DINO EGGS!

Calling all Junior Paleobotanists! We need your help hatching the eggs of some our carnivorous dinos! Are you up to this important task?

Here's what to do: An egg-citing discovery awaits as you roam through Jurassic Garden to uncover the hidden carnivorous Dinosaur eggs in six areas. These areas are called "plots." Each plot has an identifying number. When you find the right plot number, look for the dino egg and GET TO WATERING! This will simulate rainfall and help hatch the eggs. After you've completed your task and identified the Dinosaur species in the lines below, be sure to bring your map to the Gift Shop to receive your honorary Jr. Paleobotanist Dinosaur pin!

1 Near plot 149

Dinosaur: _____

5 Near plot 109

Dinosaur: _____

2 Near plot 132

Dinosaur: _____

6 Near plot 110

Dinosaur: _____

3 Near plot 117

Dinosaur: _____

4 Near plot 127

Dinosaur: _____

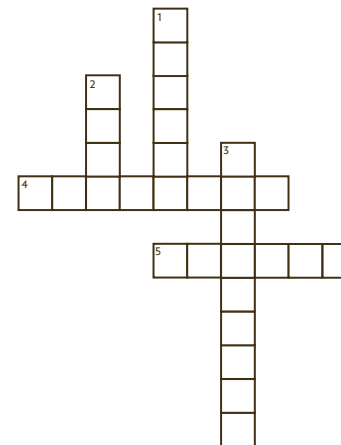

JURASSIC GARDEN

An ALL NEW Prehistoric Adventure

Oh no! The **colors** are missing, and we need the help of your imagination to bring them all back to Jurassic **Garten**!

Solve the clues and you'll be a Jurassic Garden expert!
