## **THE PALM REPORT**

40<sup>th</sup> Fall Palm Show & Sale 2024

In 2018, these Coccothrinax palms found sanctuary from destruction, thanks to a grant from the SFPS and the initiative of its members who helped to coordinate the move. The tallest one measured 47 ft. They were replanted at the Kiem Foundation. More information can be found at [www.southfloridapalmsociety.org](http://www.southfloridapalmsociety.org) under Projects.

Welcome to the 2024 Fall Show & Sale of the South Florida Palm Society at Fairchild Tropical Botanic Garden. You will be able to choose from many species including uncommon and very rare palms and cycads from local vendors. I am certain you will find the perfect palms and cycads for your landscape.

In addition, you can meet the local palm and cycad growers. They have lots of experience, and they'll be happy to answer your questions about achieving optimum results with their plants.

Thank you for being part of our sale. Fairchild is a beautiful venue for our event, so please enjoy the garden as well, including Fairchild's collection of rare palms and cycads surrounding our sale site.

You might consider joining our Society, which allows you to participate in our twice-annual garden tours and our Holiday Party. General meetings occur on even-numbered months at Fairchild Garden. You can sign up to be on our mailing list without joining, but we hope you will become a member.

Sincerely,

Julio Alvarez

President, South Florida Palm Society
